Description

Cottage is a resin model of a house design typical of the medieval times. It is designed for use with eM-4 miniatures (1/48 scale) but can be used with other miniatures as well. The cottage has opening doors and removable roofs so figures can be moved around inside. It comes pre-painted and ready to play right out of the box. The cottage is suitable for any Fantasy themed Role Playing Game, large or small scale miniature wargaming, or collecting.
