Description

Kingdom of Heaven covers eight historical and one hypothetical campaigns in the most troubled locations of the world. Each campaign has its own distinct set of tactical problems for players to overcome as they attempt to build alliances, establish secure domains and either repulse the Christians or eliminate the muslims. A deck of cards is used to recreate the uncertainty prevalent in those troubled times and each scenario has cards unique for it. Frederick Barbarossa, Baibars the Lion of Egypt, Edward Longshanks, Saladin and Richard the Lionhearted, among others, are all here. Each scenario can be played in 3 to 4 hours.
