Description

Manticoran Dreadnought Wall of Battle is a squadron of 8 pewter, 1/12000 scale space ships from the Honorverse. Each ship is a miniature of the Majestic Class Dreadnought. They come with plastic stands to give them the appearance of flying. The stands and ships require minor assembly. The ships are unpainted.

The ships are designed for use with Saganami Island Tactical Simulator, but is suitable for any space miniature game or for display.
