Number of Players: 2 to 6

Complexity: Moderate to High

Estimated Game Time: 3 to 6 hours

Rule Book: English

Supplements: none

Board Size: unknown size, hard mounted

Number Counters: 880 playing pieces

Description

Throne World is an exciting combat race game for 2 to 6 players. The Empire has fallen from corruption and plague, and six oppressed races vie to establish their own dynasty. Each race has its own strengths that can help it on its way to power.

Players must scout out systems and decide which ones to capture as they work their way to the former capital, the Throne World.

Combat is quick and decisive. Five different planetary and five different spaceships give players a variety of strategies to choose from.

But combat is only one tool players have to win, event chips, if played right, can be worth a space navy. Technologies, if developed fast enough, will reduce the size of the forces needed to win. But the most potent weapon of all is diplomacy: the less you have to fight your opponents, the more you can concentrate on taking the grand prize: the Throne World itself.
